

PLEASE COLLECT YOUR TOPS AND CAPS IN RINSED CLEAN MILK CARTONS

- 1** Squeeze Plastic Tops & Caps inside rinsed-clean Milk Cartons or Plastic Bottles
- 2** If necessary, make a small cut on the rim of any plastic Milk Carton or cut a slot in the front of the carton.
- 3** Attach a lid when full and recycle carton and tops at one of our Recycling Banks - see website link below for bank locations:

Cut a U-shaped slot in a bottle or carton with a knife.

Now you can easily push plastic tops, caps and lids inside via the neck or slot.

Fix the top back on & recycle the lot in the nearest bring-bank.

No plastic bags please!

Registered Charity No.1122801

THE MATTHEW PROJECT

no compromise
